

CEEC Report – SAVE A WATT

To promote the importance of Earth Hour, the CEEC Club (Junior) organized a walk- SAVE A WATT in the school on Friday, 29th March 2019.

The students of Classes III, IV and V raised catchy slogans and displayed colourful posters to spread awareness on conservation of electricity and its impact on global climatic change. Students also interviewed staff members to get an input from them as to how they contribute towards this change.

This initiative greatly helped in spreading the message of Earth Hour by raising awareness in the students and encouraging them to make simple lifestyle changes towards the goal of saving energy thereby our Mother Earth.
