

CAPAX-REPORT

DPS Gurgaon hosted its Annual Inter-School Science Fest 'Capax Infinitum: Grasping the Infinite' on 6st October, 2018. The event commenced with a lot of enthusiasm and cheering by the 16 participating schools that had come from across Delhi NCR. The inauguration ceremony was followed by the Principal's address, Ms. Aditi Misra who welcomed all participants with a belief that this experience would help them learn something new. She welcomed the esteemed panel of judges and guests hoping that their life experiences will help the children to change for the better. She also said that this event was a platform for the young minds to create, innovate and unravel the mysteries of science thus making them more informed citizens of tomorrow. The panel of judges comprised of the alumni of the school and experts from scientific fields.

The action packed day witnessed a series of competitions and an exhibition of exceptional talent. Exciting events like Cogito, Efficio, Cryptic Hunt, Visionis and Synchronise added to the celebrations of the day. Science enthusiasts exhibited their scientific skills in the competition. The fest started with Manifesto wherein the students exhibited their innovative and entrepreneurship skills. The participants stood to the tests of a gamut of questions in Cogito, a quiz exploring the world of science. Cryptic Hunt was a unique and enjoyable competition with a motive to build team spirit in the participants. Four different schools had to work as a team and venture into a maze of treasures, further designing a similar one for their competitors. From model making in the event Efficio to impromptu thinking and problem solving in Synchronize, the participants experienced an array of activities which were informative and educational.

The event came to an end with the valedictory ceremony where the efforts of the winners were appreciated and felicitated. The overall trophy was shared by three schools - Colonel's Central Academy, DAV Sector 49 and Lotus Valley International School Sector 50. The Vote of Thanks was proposed by Lakshay Sharma, President, Pulse, Biology Club. The event was announced closed with a hope to witness more talent, a multi-dimensional perspective and creative synergy in the coming years.
