

REPORT ON DAY CAMP – CLASS III

“An enriching environment and outdoor space inspires a sense of wanting to investigate and explore”

To give the children an experience of bonding with their classmates and a sense of independence as they try new adventures away from home, a Day Camp was organized for the students of class III on 28th February 2019. The day was thoroughly enjoyed by the children as they became familiar with the school premises by participating in fun filled activities. It was a day where they discovered for themselves a new world which awaited them, a different experience from their regular routine.

A warm welcome was extended by the class teachers to the enthusiastic children as they stepped into DPS Gurgaon, Sector 45 for a day which offered a structured opportunity for them to explore the new building.

Children loved to pose for the camera with different props at the creatively designed photo booth. Photos clicked soon became memories to last for a lifetime. Children were full of eagerness and excitement as they tried their hand at various games. Outdoor games played by the children not only kept their spirits high but also helped them achieve better agility, coordination and balance. Treasure Hunt had the kids go on a mission to explore different places from a series of clues given.

While the lip smacking snacks at regular intervals gave the required energy to the little ones, the story telling session took the young, curious minds to a journey of imagination. Giggles and laughter echoed as the tender minds absorbed each moment with awe. Spirits were high and happiness could be felt in the air when they witnessed a lively performance by their own teachers. After a scrumptious dinner as they were about to depart, the children were handed over a small goody bag with sweet memories of the camp.

The Day Camp was indeed an important microcosm that will help children adapt to the new surrounding in a better way as they enter another phase of schooling by stepping into a larger expanse.
