

Mother's Day/Father's Day Card Making Activity

“Raising a child is a partnership, where the father’s role is just as important as mothers.”

A card making activity was conducted on 9th May, 2019 for classes III, IV and V to mark the celebrations of Mother’s Day and Father’s Day. Students made beautiful cards for their parents, expressing their love and gratitude towards them. The students wrote special messages for their parents which conveyed their fondness for them, encapsulating how special and important their parents are in their life. The children enjoyed making attractive cards and appreciated their parents’ tireless efforts in their lives.
