

Prep-Peace Whispers

Students of Prep welcomed their parents to a message oriented programme 'Peace Whispers' held inside school premises to campaign for peace and compassion . Dressed up as nationals of different countries, the children greeted everyone in the language of the country their class represented. They, in chorus, sang songs related to world peace in chorus. On display in school corridors were the beautiful handcraft, colourful costumes and delectable food platters representing the cultures of countries across the world. The programme continued in the classrooms where the young citizens shared some interesting facts about their nation. Messages for love and greater tolerance in the world were also shared by the young ones. Our Principal, Ms Aditi Misra, in her address, reiterated the importance of ideals such as kindness, righteousness and forbearance to be practised in the school environment for peace education.
