

LEAD PROGRAMME

“Innovation distinguishes between a leader and a follower”

In a continuous endeavor of empowering our young students of basic skill sets which are important for ensuring a dynamic thought process, progress and self-belief, Delhi Public School, Gurgaon organized a skill development programme in collaboration with SkillSphere Education. This workshop was conducted for the students of classes V and VI (session 2019-20). Three day workshop was held on 9th March, 10th March and 11th May 2019.

The focus of this programme was to train the young brains in four major focus areas namely Leadership (L), Entrepreneurship (E), Awareness (A), and Diplomacy (D) through well-structured modules. Activities like Number Stamping, Elevator Pitch, Mind Maps contributed in developing problem solving and design thinking skills. Linguistic ability and entrepreneurship skills of the students were enhanced through activities like Movie Making, Million Dollar Baby and Sales Pitch. Students were motivated to develop logical fluency and lateral thinking attitude through various fun games which allowed them to perform in group as well as individually.

By the end of the session, the students could brainstorm the creative ideas and were extremely confident in showcasing them. General awareness formed the basis of the programme and the students were exposed to a plethora of National as well as societal issues.
