

## **INFANT WING-TRANSPORT PARK**

The setting up of a Traffic park and petrol pump in the school lawn generated a lot of enthusiasm amongst our little ones.

One of the highlights was kids had to buy tickets to enter the park. Children were made aware of the different modes of transport. They also learnt about the traffic signals and safety rules through various activities. Students of Nursery F presented the special assembly 'Wonder Wheels '. It was a great learning experience for our little ones.
