

REPORT ON CHILDREN'S DAY

‘There is no garden as beautiful as Childhood.’

Keeping up with the tradition of making this day special for the students, an enthralling and fun-filled Children's Day was planned for the Junior School students on Tuesday, 10th November 2020.

The students presented a grand extravaganza by dressing up in the getup of their favourite cartoon character. An assembly was conducted to enlighten them about the significance of Children's Day. They paid tribute to Pt. Jawaharlal Nehru on his birth anniversary by sharing details about his life and achievements. The poem recited by students made them aware of the fact that they are the real future of the country.

The show began with a Google Earth quiz on animals which took them on a virtual journey to the land where these animals are found. A fascinating magic show by the teachers made the children laugh and giggle. Children were astonished to see their teachers turning into magicians and winning their hearts. The online class was buzzing with excitement and joy.

Last but not the least, the dance session added to the everlasting memories the children will treasure forever. They were overwhelmed by the efforts made by the teachers to make them feel special. Smile on each child's face made the day a memorable one.
