

ASPIRATIONS- Inter School online Discursive Thinking Exploration

Inter School Online Discursive Thinking Exploration was held online from 18th July 2025, with enthusiastic participation from Middle School students.

This year's edition was dedicated to five significant landmarks — the centenaries of Indian Hockey and Maestro Dhyan Chand, the painting maestro Ram Kumar, the historic meeting of Rabindranath Tagore and Victoria Ocampo, the remembrance of the Kakori Train Action, and the 180th birth commemoration of Shibnath Shastri.

Students engaged in interactive discussions, creative activities, and cultural explorations. A highlight was the making of **Ektara**, inspired by a traditional picture shown to them, which helped students connect with India's rich artistic and musical heritage. The three-day program was an enriching blend of history, art, and imagination, leaving students inspired to value and celebrate India's cultural legacy.

We are proud to share that Vedant Didwania VI C, Ayaan Gulati VII B & Tani Mangla VIII F were awarded the First Prize for their joint effort, and **Ektara** was highly appreciated.
