

Class III Day Camp report

“Play is the work of the child”– Maria Montessori

To give our children an opportunity to become independent, foster in them a spirit of team work and to nurture their social skills, a fun filled day camp was organized for the students of class III on Saturday, 29th February, 2020.

The teachers extended a warm welcome to the enthusiastic children as they eagerly stepped into the school at Sector 45, looking forward to a day full of laughter and excitement. After a quick round of scrumptious snacks, the children proceeded to the photo booth. They joyfully posed for a photograph with different props and a big smile on their faces.

This was followed by different outdoor games like Treasure Hunt in which the children explored the school campus based on the given clues. The fun the children had was evident from their laughter and cheer.

The Story Telling session, organised by Blue Orb Foundation had the children completely engrossed, as they were transported to a new realm of imagination. The lit up faces and mesmerised looks spoke volumes about the interest it had generated in the children. Lively performance by the teachers left the students asking for more. The day concluded with a dinner that the children relished. The children carried home goody bags with treats and a camp photograph which was a lovely gift for them to cherish.
