

## Topic: TEACHER'S DAY

Education is not to reform students or amuse them or to make them expert technicians. It is to unsettle their minds, widen their horizons, inflame their intellects, and teach them to think straight, if possible. - Robert M. Hutchins

School Assemblies are excellent resources for students to develop their personalities so that one day they may become responsible citizens of the nation. Students of Class IX presented a Special Assembly on the birthday of Dr.Sarvapalli Radhakrishnan, celebrated as Teacher's Day and expressed their love, gratitude and respect for their teachers.

The assembly commenced with a wonderful video and a Jam board Activity, where students expressed their opinions and conferred their wishes. This was followed by an inspiring prayer, the thought for the day, news headlines – National, International, Sports and DPS and weather update.

Students worked together, coordinated well to enhance their interactive skills and presented an array of performances to make this a memorable day for their teachers.
