

Diwali Card Making Activity

Art in the classroom not only spurs creativity, it also inspires learning

The Junior School set the festive and joyous mood for Diwali with a Card Making activity on 18th October 2019 for classes III, IV and V. They decorated their cards using quilling strip and eco-friendly material. Students wrote thoughtful Diwali messages expressing their deepest sentiments for a green Diwali without crackers. Bright colours of the quilling strips symbolized the excitement and spirit of festivity which is just round the corner. The students participated enthusiastically in the activity as it gave them an opportunity to showcase their creative talent.
