

Report – Diya Making Using Origami

To mark the beginning of the festive season, children of classes VII and VIII participated in the Diya making activity held on 17th October, 2019. The students made colourful and attractive diyas using Origami – the art of paper folding. They used newspapers, flyers, pamphlets etc to make the diyas and participated in the activity with great enthusiasm. It was a befitting start to the much loved festival season.
