

English Day Report

"Language is not only the ability to communicate, but also a tool to understand and connect."

The Junior School of DPS Gurgaon celebrated English Day from 1st to 5th May 2025 to help the students develop an appreciation for the English language and enjoy learning it. A variety of engaging activities were planned for the students, allowing them to explore the language in exciting and meaningful ways. These activities helped build confidence, improve communication skills, and spark the students' imagination.

Handwriting Competition was planned for the students of all three classes. They took part in it eagerly, focusing on neatness, spacing, and letter formation. The competition gave them a chance to focus on presentation and accuracy.

The Poem Picturisation activity, conducted in Class III, motivated students to express a poem through their artwork. They read the poem shown to them on the smartboard and illustrated it on the basis of their understanding. Class IV took part in a fun activity called 'Flight to Reality' wherein the students chose characters from classic novels and imagined how these characters would feel or act if they were in today's world. They delivered short monologues, expressing the character's thoughts and emotions. This activity helped them to understand the characters better, while also encouraging imagination and critical thinking. It gave them the opportunity to explore different perspectives and connect more deeply with the stories.

The activity named, Ad Mad, provided the students of Class V a unique platform to take up the role of budding advertisers where they created and presented advertisements on different products like health drinks, school bags, cookies etc. With interesting taglines and imaginative props, the students left a deep impression on the minds of everyone. The movie, 'Kung Fu Panda 3' shown to them at the end of the day was entertaining and helped them to reinforce their language skills in a fun way while also learning new vocabulary and expressions.

English Day gave students the platform to showcase their talents, ignite their curiosity, and express themselves with confidence. Through the various activities, they not only sharpened their skills but also developed a greater appreciation for the art of communication. The event sparked their enthusiasm to keep exploring, learning and growing.
