

## **Report on Virtual PTM**

**‘The key to a child’s success is the positive collaboration of educators and parents.’**

Class III, IV and V had their virtual PTM on 10<sup>th</sup>, 11<sup>th</sup>,12<sup>th</sup> and 13<sup>th</sup> of May 2021.The class teacher along with a subject teacher connected through a WhatsApp video call with the child and the parent. Wellbeing of the child and the family being of foremost importance, a fruitful dialogue took place between them.

Parents were quite satisfied with the progress of their wards and valued the efforts jointly made by the school and the teachers towards the holistic development of their child. To minimize the impact of added screen time which has become the need of the hour, eye exercises being conducted in between the study modules were appreciated.

Activity based reinforcement of topics in classes was greatly appreciated by the parents which are being enjoyed by the children as they are self-motivated to attend them to learn. Parents were thankful for the weekly support classes offered to the students during the summer break which will help children stay connected with the concepts already taught and with the teachers. Overall, it was an encouraging and productive interaction for both the teachers and the parents.
