

## Science Day Celebration at DPS Gurgaon

Every year since 1987, National Science Day is celebrated on 28th February, to honour our Nobel Laureate and great Indian Physicist, Sir C V Raman, whose breakthrough discovery, 'Raman Effect' brought the first Nobel Prize in Science for our country, in 1930.

DPS Gurgaon, under the aegis of AIM, Niti Aayog, celebrated this event in their ATL Lab to innervate young minds and to inculcate scientific spirit. This was done, keeping the safety measures under Covid guidelines in mind. Students of classes X and XII participated enthusiastically and made innovative prototypes based on the requirements in daily life, using the equipment available in the ATL lab.
