

STORY TELLING SESSION

'The purpose of a story teller is not to tell us how to think but to give us questions to think upon.'

Story telling is one of the most effective ways to communicate with students to foster the skills of listening and reading and further to transport them to a world of imagination and fantasy. A story telling session was organized by Scholastic India Private Limited for Class IV on November 23rd 2019 by Ms.Rekha Vyas. The main objective of the workshop was to develop their listening and communication skills and expanding the realm of students' imagination.

The session commenced with the introduction of the puppet show and the students were further motivated to create their own puppets. The saga of Africans during their years of slavery was depicted by a song which mesmerized the students with its tune and rhythm. The resource person also apprised the students about the different kinds of puppetry and depicted various shadows of creatures with puppets which left the audience spellbound. It was a fun-filled and enriching experience for students. The session concluded with 'Ojeema' which means working together and making our Country better. Overall, it was a great learning experience which was thoroughly enjoyed by the children.
