Inter House Sway Competition – Class VII

Sway is an app from Microsoft Office that makes it easy to create and share interactive reports, personal stories, presentations etc.

Students of class VII worked on ‘Sway’ to create beautiful presentations on the topic ‘Eco-friendly Diwali’ as a part of the Inter House Sway Competition for class 7.

Parikrit Datta of Chenab House secured the first position, followed by Aaniya Mittal of Jamuna House in the second position. Varnika Vashisht of Ravi House secured the third position.

Children enthusiastically participated in the competition and their presentations showcased the story behind the celebration of the festival of lights. They also presented innovative ideas which can be adapted to celebrate an eco-friendly Diwali.

The presentations were judged on criteria like originality of content, creativity and use of graphics and multimedia. Children excitedly explored and learned a new software and made appealing, compact and comprehensive presentations.
