

World Book Day Report

Junior School

“Books are the quietest and most constant of friends; they are the most accessible and wisest of counsellors, and the most patient of teachers.”

Charles W. Eliot

Books are a uniquely portable magic. They have the ability to entertain us and allow us to travel to different places through our imaginary senses.

To bring children close to this magic once again, the D.E.A.R programme was conducted for students of Junior School on 23rd April, 2021. The D.E.A.R Programme made the experience enriching and enjoyable for the students.

In order to inculcate the love for reading amongst the students of the Junior School, World Book Day Assembly was held from 27th April to 29th April, 2021 across classes III, IV and V. The assembly was held with the objective to generate awareness in the children regarding the various genres of books available, from classics to fiction and from thrillers to autobiographies. The children were also apprised of the importance of World Book Day.

Keeping in mind the theme of World Book Day 2021- ‘Share a Story’, the students were given an activity to weave their own stories, using the given cues. The process of story-weaving opened the doors of their minds towards different parts of a story like characters, plot etc. The children also illustrated their stories which gave them a better insight. This activity helped them to recognise their talent and consider themselves as young authors in the making.

The students enjoyed the activity thoroughly. They also shared the genres and authors they like to read. They all could relate to how exciting and enjoyable the journey of reading a book can be!

THE DIFFERENT GENRES OF BOOKS

Genres of books simply specify what categories or sub-categories a book belong to.

Action and Adventure	Classics	Detective and Mystery	Science Fiction
