

ASSEMBLY REPORT- CLASS XII

Dated: 17th June 2021

A virtual assembly was conducted by the students of classXII on the topic ‘A revolution that has changed our lives: Artificial Intelligence’. The assembly began with a profound thought for the day “Our intelligence is what makes us human, and AI is an extension of that quality.” This is a very plausible statement and makes us comprehend the extensive human capability that is present behind such a major technological breakthrough.

A skit was showcased by the students which underscored the numerous benefits of artificial intelligence and the future of AI. Lastly, a very interesting comic strip was prepared by the students which highlighted the prospective dependence of humans on AI for their day-to-day tasks. Overall, it was very well organized and all the students learnt a lot about this vast and curious topic of AI: Artificial Intelligence.

The Director Principal, Ms Aditi Misra, applauded the students for their presentation on the relevant topic. She made a few important announcements about the upcoming Mid-Term Exams. She emphasized on the importance of appearing for the exams and studying hard to get a good predicted score. She encouraged the students to remain positive and fight through these turbulent times.
